

The purpose of this data is to provide our JPS staff, families and students with a transparent summary of campus COVID-19 cases resulting in exclusion from school activities. An active case indicates that a student or staff member participating in on-campus activities has tested positive for an active COVID-19 infection. Individuals who test positive are excluded from participation in any in-person/on-campus activity until a school official verifies that the individual meets the return criteria set by state and local health authorities. Once the case is cleared to return they are no longer considered an active case and their case is removed from the dashboard count. Please note: *A staff or student in quarantine does not equal a positive case.* They could be in quarantine due to being in close contact with someone that was positive from the school setting or was in close contact with someone that was positive outside of the school setting.
