Ms. **Angie Bristow's** classroom at **Frost Elementary** is one that is filled with positivity and students who are being pushed to reach their full potential. In addition, it is one where students are empowered by having assigned roles in the classroom. One of these roles is that each time a visitor walks into the classroom, a student tells the visitor what the daily objective is.

This month, Ms. Bristow's class is working on a service project to benefit the Interfaith Shelter. The students are doing various things around school to raise money so that the shelter can purchase city bus tickets for their residents so that they can do various things around the community. During her tenure here, she has taken a huge amount of pride in helping make Bennett a positive learning environment for all of our students. She sees every moment as a teachable opportunity, whether it's in the classroom, hallway, cafeteria, lobby or outdoors; and every single child in the building benefits from her experience and expertise. Many have shared happy memories of learning in her classroom; of the memory books she created for each and every child of their school year; and the positive reinforcement she gave them to help succeed in life.

Carol is responsible for capturing Bennett's exciting daily events for our Lobby Monitor, as well as working with the PTO, Energizing Education, fundraisers, and any other projects with enthusiasm and without hesitation. She devotes countless hours of her own time to Bennett, often arriving early and leaving late making sure that her students – and all of Bennett's students – benefit from their time here.

It is because of her total devotion to our Bennett family that we are proud and pleased to announce Mrs. Carol Novak as our December "Power of One."
