

February 2017

It is with great pleasure that we nominate **Bobby Bertke** and **Meghan Larson** as the Power of One at **Middle School at Parkside**. This dynamic duo of 6th and 7th grade Science teachers are doing great things for our students and professional learning community. Recently, they shared their best practices using NWEA Data and the Learning Continuum practices at a staff meeting. They are great at planning and preparing lessons, willing to take risks in teaching and learning and continue to grow as educators by reflecting on their teaching and analyzing student data. We are pleased with the contributions of both of these teachers and wish to honor them as The Power of One.
